

Cloud Sprint: Google Cloud Application Migration Workshop

Add a solid foundation to your Google Cloud application migration. Cloud Sprint is an intensive hands-on workshop that focuses on skill-building and migration strategy planning. The workshop includes interactive whiteboarding sessions, a review of target applications, and a full design and configuration plan for your app migration.

STRONGER CLOUD SKILLS

Qwinix's Google Cloud experts bring your team up to speed with hands-on practices and support.

FULLY DEFINED APP MIGRATION STRATEGY

Leave with defined deployment activities that align with your IT environment and business needs.

REPEATABLE PROCESSES

Help you ensure future seamless migrations as your cloud environment grows.
